

Re-Elected Representative

Bill Moore of Muleshoe discusses Little League problems with a fan following a district meeting in which Moore was re-elected district representative.

District Little League Men Meet In Canyon to Discuss Problems

Bill Moore of Muleshoe was re-elected district representative at a district Little League meeting here Sunday afternoon. Moore will be serving his second term as the district man.

In addition to the election, the member leagues of the district instructed Moore to work against a rules change by the National Congress which would require a team manager to play each member of his team in every game. In a discussion of the problem, it was decided that such a rule would tend to kill the desire of the youngsters to improve themselves since no goal would be in sight.

Bud Parker, Canyon Little League president, bid for the district playoff next summer to be played in the Canyon park, and Eugene Hill of Dumas spoke on behalf of the Canyon offer.

In other business, Joe Smith of Hereford, manager of the district championship team, said that good umpiring and hard work are necessary to have a successful Little League program. Smith said that bad umpiring can kill the spirit of the

Services Today For Osborne Baby

Funeral services for William Gene Osborne were conducted at 10 a. m. today in the First Baptist Church by the Rev. Strauss Atkinson, pastor.

Palbearers were Nolan Henson, Virgil Henson, Rex Ramsower and Tom Gooch Sr. Burial was in the Plainview cemetery at 1:30 p. m. with the Rev. Harlen Harris of Plainview officiating. Arrangements were under direction of Warren-LaGrone Funeral Chapel.

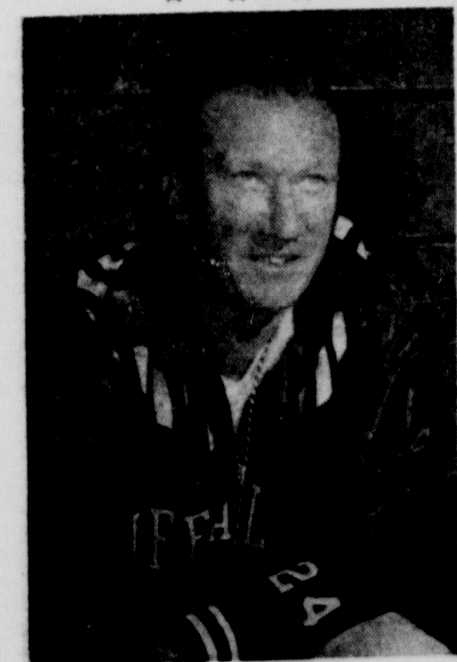

The two-month-old boy, son of Mr. and Mrs. William Maye Osborne, died in the family home in Houston Monday morning.

In addition to the parents, survivors include the grandparents, Mr. and Mrs. Walter Graham, Canyon and Happy, and Mr. and Mrs. E. M. Osborne, Plainview, and a great-grandfather, W. A. Graham, Amarillo.

Bufs Open Home Season Monday Against Middle Tennessee Squad

Coach Borden Price will enter a team in the first home game of his career as head basketball coach at WT Monday night against Middle Tennessee.

☆☆☆

BORDEN PRICE

Tickets for the game went on sale Tuesday at the WT fieldhouse and at Maxor Drug in Amarillo. Prices are \$1.50 for reserved seats, \$1 for general admission and 75 cents for students. The game will begin at 8 p. m.

The Bufs will meet Texas Tech tonight with the freshmen playing at 6 p. m. and the varsity at 8 p. m. The game will be the only one this season against the Lubbock team, and will be played in Lubbock.

Coach Price's team dropped three games last week to West Coast teams—Pepperdine, Santa Clara and San Francisco University.

Charles Beaston led WT scoring in the 83-74 loss to Pepperdine with 20 points, while Junior Fitts popped in 18 points.

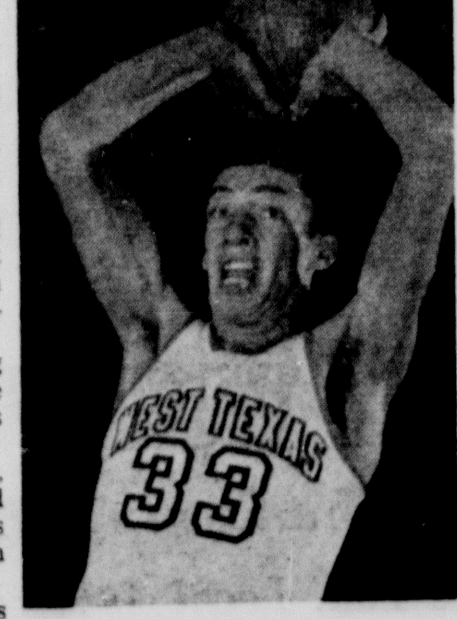

In the 68-46 Santa Clara loss, Beaston and David Hatcher picked up 11 points each and Fitts was fouled off in the first half when he had eight points.

San Francisco drubbed the Bufs 73-45, with Fitts and Hatcher mak-

ing 11 points each. Jim Reid was third with seven points.

Fitts and Beaston are tied for scoring honors with 37 points each.

☆☆☆

JUNIOR FITTS

Money to finish purchasing right of way for the Amarillo to Canyon expressway and to purchase right of way for the expressway west on Highway 60 will be raised through the issuance of \$250,000 in warrants, the Randall County Commission decided Monday afternoon.

The official order issuing the warrants will be given following advertising of the decision. The warrants will be refunded into bonds after all have been issued, and will be repaid from the precinct road and bridge funds.

The decision came after considerable discussion, lasting for more than two months. The commissioners noted that the \$250,000 raised through the warrants would be matched by the state highway department, giving a possible \$500,000 for right of way purchase, if it is needed.

Commissioner C. Y. Johnson brought the decision to a head by introducing the subject again at the end of the regular meeting. "What I like about it (the warrant plan) is that we're not stacking any taxes on the people but are

Help Old Santa Out; Send Him a Letter

Does Santa know for sure what you want for Christmas?

The jolly, old gentleman has things, but he can use a little help from you 'long about this time of year.

absorbing the thing out of the present structure," Johnson said.

Commissioner Bailie McCormick objected that "The people won't have a say in it."

Johnson answered, "Of course the people can have a say in it if they want to. If 10 per cent petition us, it's no go."

In previous discussions, Bob Davis of Columbian Securities had told the court that if 10 per cent of the eligible voters of the county petition against issuing warrants, the court cannot issue them. The petition

Post Office Asks Patrons' Help

An aid to faster mail service this Christmas has been delivered to box holders and homeowners in Canyon. Acting Postmaster Marion Higdon said this week.

Sticker forms to be attached to bundles of mail for in-town and out-of-town delivery have been given to postal patrons to make delivery faster, he said. Higdon said the stickers could make the difference in getting mail through the Post Office in time to catch early trucks.

Patrons mailing Christmas cards and other large mailings are asked to bundle the mail into two packages, one for in-town delivery and the other for out-of-town. The stickers should be attached to the bundles, thus aiding the Post Office employees in sorting.

Higdon said the Post Office front windows will be open on Saturday afternoon so long as they are being used. He said the Post Office will try to maintain regular hours as much as possible, but if patrons need to use the windows Saturday afternoons, they will stay open.

would have to be presented at a public hearing, the date for

Buffalo Boosters To Consider List

Nine recommendations submitted by the ticket committee will be considered at the regular monthly meeting of the Buffalo Boosters Monday night in the West Texas State cafeteria.

The recommendations include 1) Work with all publicity and promotional directors at the college; 2) develop a major college schedule; 3) suggest appointment of fulltime business manager of athletics at college; 4) public announcement of paid attendance and number of free passes at all public events;

5) Attention should be focused on the problem of free passes; 6) more publicity should be given on the meetings of the West Texas State College athletic committee; 7) request copies of minutes of meetings of athletic committee for past three years and in the future so Boosters can coordinate activities with college policies;

8) A nomination committee to be appointed to elect officers before end of this year; and 9) payment of regular monthly dues to Boosters so money will be available for year-round program of help.

The recommendations were submitted by the committee at the last meeting Nov. 18, and the club voted to consider them at the December meeting after a listing of them was sent to all members. The meeting will begin at 7:30 p. m.

City Signs Widening Contracts

Municipal maintenance agreements for the widening of Fourth Avenue were signed by the Canyon City Commission Monday night, and the commission was notified that if the right of way is clear by Jan. 15, the state highway department would begin advertising for bids for the construction.

The highway department said Fourth will be widened from 16th Street to the east city limits. The paving will be 64 feet wide from back of curb to back of curb, and will have sidewalks on both sides. Widening of the street will be taken care of on the existing right of way, an 80-foot strip. The new street will not have a dividing strip, a highway department spokesman said.

In effect, the new look on Fourth Avenue will be the same as on 23rd Street, Highway 87 south, with the same width paving.

The highway department said that if the right of way is clear by Jan. 15, the job could be advertised for bids, and the contract might be let at the February letting time.

As a first step in clearing the right of way, the city commission ordered City Secretary Andy Boggs to contact each property owner along Fourth offering the residents the right to keep trees planted in the parkway on public property.

Boggs said letters would be sent to each property owner this week.

The commission said that property owners may keep the trees by notifying the city hall by Dec. 20, and moving the trees by Jan. 1. If property owners do not notify the city by Dec. 20, the commission will assume the trees are not wanted and will begin clearing them from the right of way.

Those property owners who decide to keep the trees in the parkway in front of their houses must move the trees at their own expense. The city will be involved only in removing unwanted trees. Those trees which are moved must be replanted on land inside the property lines.

In other action, the commission refused an application for a loudspeaker permit from Richard Pruett for the Village Drive Inn because of complaints from neighbors of the restaurant. The commission approved an application from the Chamber of Commerce to use a loudspeaker at 3 p. m. on Saturdays in December to handle the merchant's drawing.

They gave a 90-day animal permit to Billy Jack Settle to keep six rodeo horses in barns located at 1711 Ninth Avenue.

The commission ordered Boggs to set up a meeting with truck

owners to discuss the parking problem for trucks. A petition signed by 100 citizens was sent to the commission last month.

SCHOOL STUDY GROUPS START

Five study committees were organized Tuesday night in the high school cafeteria to make a comprehensive study of the Canyon public schools for the school board and in cooperation with the Hale-Aikin statewide committee.

Board president A. C. Haley Jr. welcomed the citizens and explained the board's purpose in starting the study. He said that several years ago when the district was faced with a classroom shortage a series of similar committees was set up and the elementary school was the result of the study.

"Now we find ourselves faced with a classroom shortage again and we are in somewhat of a quandry about what to do about it. We decided to ask the help of the citizens," Haley said.

He said the board realizes that it has the responsibility of making the decisions and has no right to delegate the responsibility to anyone else, but "with your help and your recommendations, we'll be less apt to make the wrong decision."

Supt. Joe A. Gibson explained the purpose of the Hale-Aikin committee work. He said the Gilmer-Aikin bill has been in effect eight years now, and the legislature decided a statewide look at schools would be in order so that attention could be given to problems. A set of study committees has been set up in each county in the state, with the responsibility of reporting to the Hale-Aikin committee.

Dr. J. B. Roberts was elected county chairman of the study committees for the Hale-Aikin group. The five study committees will make reports to Dr. Roberts and to the school board. Dr. Roberts will report in turn to the state committee.

Following orientation by Dr. Roberts, the members of the five committees organized themselves and set meetings for later study.

The committee on growth trends elected A. W. Lair as chairman, Truett Hull as recorder and set a meeting for Jan. 7 in the Presbyterian Church.

The committee on school facilities elected Delbert Lowes chairman, Raymond Raillard recorder, and set a meeting for Jan. 20.

The committee on finance elected (Cont. on Back Page Section 1)

which will be set in the official advertisement of the intention to issue warrants.

Commissioner Glen Dowlen said that the people had a say in whether or not to build the road north, but had not had a vote on the one west. McCormick said he doubted if a bond election would pass.

If the court did not raise money through warrants, it would have to call a bond election. They had discussed the bond election method and had decided it would be more expensive than issuing warrants.

In discussion of the right of way to be purchased west from Canyon, McCormick said, "This first (Cont. on Back Page, Section 1)

Wins \$100 Drawing

Chamber of Commerce president Delbert Lowes congratulates Mrs. David Horn for winning the first \$100 drawing to be sponsored each Saturday in December by Canyon merchants.

Eagle Squad Wins One, Loses Two; Play Hereford Here Tuesday Night

The Canyon Eagles are hitting .600 in the win-loss column this season with a 51-50 win over Stinnett Tuesday night following losses to Dumas and Price College on Dec. 3 and Dec. 9. Earlier this season the Eagles had downed Gruver and Happy.

This weekend, Canyon will play in the Happy Tournament with games scheduled Thursday, Friday and Saturday. Next Tuesday night they will be at home again with A and B games against Hereford. The B game begins at 6:30 p. m. and the A game immediately afterward.

Two free shots by A. L. Pruett just before the final gun pulled the game out of the hole for Canyon Tuesday night against Stinnett. The shots changed the score from

a 50-49 loss to a 51-50 win. The Eagles lost to Price College Monday night by a score of 59-43. Davis led scoring for Canyon in the game with 15 points. Pruett was second with six points.

In the Price College game, Davis hit five of 17 field goals and five of five free throws. Through four games, Davis has had 15 free shots and has hit all 15.

Last week against Dumas, the Eagles were stopped 56-40. Leonard Miller led the Eagle scoring with 12 points. Pruett was second with 11 points. Miller made five of 17 field goals and four of five free shots. Pruett made five of 18 field goals and one of two free shots.

Wait for Weekly Winners

A portion of the crowd which gathered on the square for the first of four weekly drawings for \$100 is shown waiting for the number to be called. The next drawing will be at 3 p. m. Saturday at the bandstand. Tickets may be obtained from any of 34 Canyon merchants who sponsor the drawing, and new tickets must be obtained for this week's drawing. The holder of the winning number must be present to collect the money, and numbers will be called until a winner is present.

Treating the Symptoms

Any number of events present themselves daily that call for editorial comment. Most deal with subjects that are geographically removed from Canyon, yet have at least a remote tie-in with the people at home. During the past week or so, these subjects might have been written about:

- A 6 per cent tax on advertising in Baltimore, being billed as a threat to freedom of the press because of the ability to raise the tax to 100 per cent.

- The ever-growing tendency to forget what we are remembering when we celebrate Christmas.

- The inability of the United States to send up grapefruit sized satellite into an orbit around the world a month or so after the Russians had sent up one weighing half a ton.

- The request by farmers for grazing of wheat planted on land in the soil bank.

- The agreement by the Santa Fe with the non-operating unions to require non-operating employees to pay dues and assessments to the unions in order to keep their jobs.

Yet, any editorial comment on these and dozens of other subjects would be much like a doctor treating an abscess that needs to be lanced with a dose of aspirin for the fever the abscess causes.

By noting the symptoms of troubles in our country, and offering solutions for the symptoms, editorial writers are skipping the disease that infects us. Our troubles need attention, of course, but when we devote all of our attention to the troubles and fail to recognize the

basic cause we are doing ourselves a disservice that could be fatal.

We believe the greatest part of our national troubles are coming from a lack of principle among the people and the leaders. It's not only that we don't fight for our principles, but that we have none to fight for.

It's easy to find farmers who say that the soil bank is nothing but a giveaway, and should never have been started. Yet, it's hard to find one of those same farmers who did not get in on the giveaway — "If I don't take it someone else will, and I might as well get my share."

It's easy to find people who think we start celebrating Christmas too soon, not even waiting until the Thanksgiving turkey has been made into hash. A lot of people think we emphasize the commercial and forget the spiritual in Christmas. But you'll find those same people falling right in line, everybody else is doing it and we don't want to be different.

People of principle are different. They stand out from the crowd and are oftentimes hooted and bedeviled by the crowds. They're different because they have firm convictions about what is right and wrong, and refuse to be led into something that is wrong. They have strength of character that most of us lack, and they retain the privilege of thinking for themselves.

And you can count the number of people of principle that you know—mostly it won't take all the fingers on one hand.

What can be done? We don't know, we're not sure we have enough principle to find out. Something has gone wrong with our system of living. Maybe we're paying too much attention to the material and not enough to the spiritual. Maybe as civilization grows more complex, we cannot find our way to the basic simplicities.

Our national disease is worthy of deep thinking. We commend a period of study to all of you, and we hope that we can find time from everyday living one of these days to do some thinking, too.

—Pay Your Poll Tax Now—

Such a Change

There have been times in the history of our nation when political parties have been proud of the thriftiness of government operation when they were in power, and parties have been deposed at elections because they spent too much money.

What a change there has been now. The Republican National Committee has sent out a comparison of expenditures between the present administration and the last Democratic administration showing that the Republicans have spent more money for national defense, research and development and the missile program.

The figures show that the present administration has spent between two and three times more money than was spent during the Truman years, and we suppose the Republicans expect the figures to gather votes. And with everything else topsy-turvy, that could easily happen.

Pay Your Poll Tax Now—

Pardon Our Pride

Never again shall we consider December 7 as a day of infamy, for Cristi Cherry was born that day this year.

Both mother and daughter are in fine shape, and should be home by the time you read this. Our thanks to all our friends who have been so kind and thoughtful.

Groundwork Starts For Livestock Show

Groundwork for the Randall County Junior Livestock Show was begun as the Randall County Livestock Association met in the agriculture building at Canyon High School Dec. 5.

Next year's officers were elected.

Open to any boy or girl in Randall County, the show will be held in the city barns Jan. 17 and 18.

Prizes and ribbons will be awarded in the classes, which are

I GIVE YOU
TEXAS
By
BOYCE HOUSE

Memories of last summer's visit to St. Louis:

In the window of a second-hand book store, a copy of the White House Cook Book and a placard, "Rare Item." My mother had one; it was a white book with a picture, in black, of the White House.

A liquor store displays in the front window what is said to be a facsimile of a saloon license issued to Abraham Lincoln and two partners. One of them had the intriguing name of Bowling Green.

A man has found a way of sending a message without using the mails, telegraph or even smoke signals. A big sign on an old building reads: "Mr. Blank, president of Blank's Store, you have demanded that the city buy this property and erect a garage at the taxpayers' expense so your customers can park. Why not erect your own garage on your own property at your own expense?"

While viewing a technicolor Western, I was startled when a bird flew across the screen—a real live bird. The bewildered creature flew across the pictured sky a little later when the actors all were looking up, as though gazing at it.

Well, that's one way to get into the movies.

When Robert Louis Stevenson visited a town (so a biographer sadly recorded), he would visit the waterfront but failed to view the town's monuments of culture a few streets away.

My friend, the late R. K. Phillips, advised me, when I arrived to edit his paper in a Texas oil town, "Keep out of a fight. But if you have to fight, get in the first lick. And make it a good one."

A sign on a San Antonio used car lot: \$4 down, \$7 a week."

unchanged from previous years. A sale will be held after the show.

Animals may be taken to the Amarillo Fat Stock Show from the local show, according to John Brazil, county agent.

Officers elected at the Thursday night meeting are John J. Cook, president; Dr. J. L. Markham, vice president; Duane Howard, secretary-treasurer; and J. O. Parker, general superintendent of the livestock show.

An executive committee meeting will be held Dec. 12 at 7:30 p. m. in the Duane Howard home, 2408 Tenth Avenue, to complete committee assignments and other show plans.

Scissor Snippings

Harold Hudson in the Ochiltree County Herald (Perryton): The El Sombrero, Perryton school newspaper, has an editorial this week, "Are We Delinquent?" in which the writer points out that in Perryton there are only four things for a teen-ager to do, to-wit: go to the show, drive-in, skating rink or dragging Main. Sooner or later, everyone drags Main. Personally, we don't see anything wrong with dragging Main. We used to do it when we were a teen-ager and it had been done for years before we got old enough to be trusted with the family car.

And when you get right down to it, what does any city offer in the way of entertainment to teen-

agers that the small city like Perryton does not offer? True, in larger cities there are bowling alleys, concerts, art exhibits, perhaps museums, but we don't think the teen-agers seek these out. We'll bet they "drag Main" or its equivalent in Amarillo as much as they do in Perryton.

Besides, we don't see how the kids have time to even drag Main. We are on the committee to make arrangements for the annual Ranger football banquet, and in checking the school calendar of events, found that every night from now until Christmas is crowded with from one to five activities. We finally settled on Dec. 21 because it was the least crowded and the

school cafeteria is available on that night.

☆☆☆

Jimmie Gillentine in The Hereford Brand: Harry Caylor should have been a real estate salesman.

All week he has been luring various citizens into penny-ante football bets. He always follows the same pattern of talking about "that strong Abilene team," then he winds up taking Amarillo and giving six points. He has another good idea. He never puts up any money. I tried two or three times to get to hold stakes, but they never did have any. If there is anything I'd rather hold than coats for a fight, it is stakes for a bet.

NEWS LETTER

FROM CONGRESSMAN WALTER ROGERS
OF THE 18TH CONGRESSIONAL DISTRICT

The President's Illness
The shock and concern that engulfed the Capital City at news of the President's illness could be felt even before the cause was known. It was very evident something was wrong, and many people, when they got the news, were heard to remark that they felt something had gone wrong but did not know exactly what it was.

It was generally suspected throughout the nation's capital that the whole story was not being told when it was reported the President had suffered a chill. It is pretty hard to fool the American people, and subsequent developments proved they had not been misled by the original soft peddling as to the condition of the President.

Science

The outstanding scientists of this country have had several big days before the Senate Preparedness Subcommittee headed by our Senior Senator, Lyndon Johnson. They have undertaken to explain the position of this country on matters scientific. Other individuals, busi-

nessmen and otherwise, have appeared before the Subcommittee and offered their bit.

Many excuses have been offered in explanation of why the Russians led us in placing a satellite in orbit. Some blame it on the lack of sufficient funds, which is not an unusual American excuse.

Others say we just did not develop the know-how because we did not realize Russia was so far advanced. Others claim it was the result of a simple miscalculation as to when great effort should be expended on the missile program. Other reasons were advanced, but these three seem to be the most important. As to the first one, it can be said there was never a country in the history of the world which provided as much money for defense purposes as has the Congress of the United States for the defense of this country. If these funds were wrongfully spent, that is another question, but to say funds were not ample and sufficient is just not true.

As to the second reason, there

is some merit. It appears this country has been spending too much time in recent years telling about the things the Russians have not accomplished and too little time finding out what they have accomplished. In other words, we have been trying to rest on our past laurels and refusing to recognize the fact that other people have capabilities the same as we.

As to the third reason, there is little question that a lag in the missile program was permitted pending the development of an atomic warhead small enough in size to be transported by a missile.

As the matter now develops, both programs should have been worked on at the same time. It is very good the sputnik has awakened us to some of the failures so they may be corrected without undue delay.

There is one question in this entire controversy which seems to have been completely overlooked. That is, "What was our intelligence doing while the Russians were developing their missiles and their sputnik?" I have yet to see an explanation in answer to this question.

To me, it is most important, because only a few years ago we had the atom bomb and it was our secret. Yet, the Russians, through their intelligence and espionage system, were able to steal that secret from us. What happened to the Agency headed by Allan Dulles, the brother of our Secretary of State?

I speak of the Central Intelligence Agency which is so super-secret. This Agency spends a tremendous amount of money each year on programs and projects so secret the people who furnish the money are not even allowed to know the general purpose for which it is spent. No doubt this is another agency which will be looked into come 1958.

The truth about our scientific failure, if it could be so called, goes a lot deeper than many of the reasons which were given to the Senate Preparedness Subcommittee or to any other committee investigating the matter on Capitol Hill.

Soil Tests Help Lawns, Gardens

COLLEGE STATION—A soil test is the first step in getting your garden or lawn off to a good start next spring.

Fertility — of the right kind and amount — is necessary to keep lawns growing good and to keep gardens producing plenty of good vegetables. This can be determined in a laboratory test.

Taking a soil sample for testing to determine its fertility needs is easy, said William F. Bennett, supervisor of the Soil Testing Laboratory at Texas A. and M. College. If it is from a lawn dig about the first three inches of soil from about 10 different places, mix them together and then take about a pint to be used for testing.

If it is from a garden use the same procedure, but dig about the first six inches of soil, Bennett said. One sample normally is enough for most lawns or gardens, but if the type soil differs from one part of the lawn to another a sample from each of the various types should be taken.

A soil test cannot be used to determine whether a plant has dried from root rot or some other disease, he said. Neither can the test be used to determine presence of soil insects or other effects not due to a lack of soil fertility. However, if samples are taken to help determine plant growth difficulties, complete information on how the plants have grown and symptoms of the disease should be included with the soil sample.

After a soil sample is collected an information sheet should be obtained at the county agents' office and completed to accompany the soil sample to the Soil Testing Laboratory at Texas A. and M. College. The length of time required to test the soil sample is usually one to two weeks.

December Launches Christmas Shopping

December launched Christmas shopping in Canyon stores, according to merchants.

Owners and managers of business houses credited the increase of holiday buying to the start of December and to the partial finish of maize harvest.

Reporting heaviest increases of business were variety and hardware stores. Although the holiday shopping was not as heavy in November as usual, owners report a brisk business since Thanksgiving.

Lay-away items make up a large part of business, said a store manager. Others reported decorations and gifts that were new on the market caught customers' eyes.

Most of the merchants, however, reported that there was no demand for any particular item, except Christmas decorations.

Residents are hurting Canyon merchants by shopping in Amarillo, one merchant said.

The simple truth is, there has been a failure by our entire country to fully realize and appreciate the need in the fields of science.

In many of the schools there is no science course. This may be due to lack of funds for equipment, but usually it is due to the lack of funds with which to pay properly equipped school teachers. In some instances the money is available but there are no teachers.

This is not a mistake or a failure that has occurred within the last few years. It has been going on for a long, long time. It cannot be solved by some fly-by-night cure-all legislation permitting the government to finance some child who has been chosen as having a mind with a scientific turn.

The solution to this problem lies at the grass roots of this nation. Proper facilities and teachers must be made available to every school in this nation. The facilities can be readily acquired—the teachers cannot—unless we are willing to recognize them for their true worth and to pay them in accord-

WT Chorus Sings Here Thursday

A program of traditional Christmas carols and modern part songs will be presented by the 65-voice A Cappella Choir of West Texas State College Thursday at 10 a. m. in the Canyon High School auditorium.

The Canyon concert is one of eight to be given by the WT choral group in South Plains schools on its annual Christmas tour. A second tour is usually made in the spring. Other appearances are scheduled in Plainview, Muleshoe, Tahoka, Post, Littlefield, Dimmitt, and Tulia.

One of the most widely known choral organizations in the Southwest, the WT A Cappella Choir is directed by Dr. Houston Bright. A professor of music at West Texas State since 1940, Dr. Bright is composer of dozens of choruses, pieces for band, orchestra, ensembles, and piano, with about two dozen selections published within the past two years.

Among members of the choir are Debra Davenport, Helen Hood, Carol Ann Holman, and Fanita Marshall, all of Canyon.

A specialty quartet, made up from members of the choir, will also appear with the group in its programs. The "Hi-Fi Quartet" includes Jim Restine of Amarillo, Bennie Collehon of Dimmitt, Eugene Campbell of Hereford, and Joe Don Leach of Tulia.

Among the choir's repertoire are two selections by Dr. Bright, which were recently published by the Edward B. Marks, Inc., music publishers. One is an Easter anthem, "Now Sing We All His Praise," and the other is a Christmas carol titled "Joyous Christmas Carol."

A new novelty number by Dr. Bright, not yet published, will also be sung by the group. It is called "What Can an Old Man Do but Die."

Included in the program are four Russian carols and church songs, "Lamb of God" by Kallnikoff, "Cherubic Hymn" by Gretcheninoff, "If Ye Love the Lord" by Tschesnokoff, and a spectacular Russian chant by Lvovsky.

Part songs include the traditional "Motherless Child," arranged by Arthur Ward and "Spirit of the Lord Done Fell," arranged by Noble Cain.

Weekend guests in the L. E. Gum home were Mr. and Mrs. Clarence Morris and daughters of Shamrock. Mr. and Mrs. Ralph Francis of Dumas, and Mr. and Mrs. E. R. Walker of Hereford.

Harold Slack was discharged from the U. S. Army after serving six months. He was stationed at Ft. Chaffey, Ark.

President Appoints Council Committees

The Randall County Council of Home Demonstration Clubs met Dec. 3 in the Farm Bureau Building.

Mrs. John Jennings, president, appointed the standing committees for the coming year. Mrs. Ed Reynolds welcomed the newly elected members to council.

A skit, "Christmas Around the World," was presented by Mrs. Bert Northcutt, Mrs. Charles Conatser, Mrs. Ray Metcalf and Mrs. Earl Boydston. Group singing was led by Mrs. R. A. Hodges.

Mrs. Hal Zumwalt read "Christmas When I Was a Little Girl" and Mrs. Pauline Ledbetter gave a Christmas poem.

The Green Haven club served tea.

Boy Scouts Camp Overnight Dec. 6

An overnight camp was held Dec. 6 for Troop 66 of the Boy Scouts. Attending the camp designed to let boys work on advancement requirements were 34 members of the troop.

Ten Tenderfoot Scouts took a five-mile hike to satisfy requirements for advancement to Second Class Scouts. Junior Assistant Scoutmaster Roy Harris led the hike.

Other activities of the group included moonlight hikes and cooking the meals.

Camp patrol leader was Larry Brotherton. Patrol leaders were Neal Lemmons, Davis Price, Elo Myers, Ronnie Harris, and Marvin Hutton.

DUNNO

"Who do you think you are shoving?"

"I dunno, what's your name?"

Hickman Member Of Missile Class

Formal military graduation exercises will be held Dec. 17 at Inglewood, Calif., for the first class of Air Force missile experts.

Don Hickman, son of Mr. and Mrs. Bud Hickman, will be in the class of 106 Snark missile specialists. A graduate of Canyon High School, he is a civilian instructor at Amarillo Air Force Base.

The graduating class, who have been studying specialized missile courses, consists of officers and airmen of the Strategic Air Command and civilian employees of the Air Material Command.

Lt. Col. Richard Beck, commander of the squadron, will attend the exercises to be conducted at 10 a. m. in front of the missile launching facility at the Inglewood Northrop plant.

LOVE 'EM

A man was justifiably proud of his lawn until one year a heavy crop of dandelions appeared. He tried everything imaginable in an effort to get rid of them, but without success.

Finally, in desperation, he wrote to an agricultural college, listing the remedies he had tried, and concluding with the appeal: "What shall I do now?"

Several weeks later he received this reply: "We suggest that you learn to love them."

By VERN SANFORD

Today it is not a bit unusual to see women running fast speed boats, fishing with rod and reel, or hunting with the best of men.

No doubt women shoppers will look for quality in their sports merchandise even if they are shopping for the first time. Most sporting goods dealers recognize this and try to sell women the right kind of equipment. Women have a reputation for hunting bargains. But at the same time they want quality.

One is to know the new trend toward various types of equipment. For instance there was

Why Be Regular?

How regularly do you attend school? Regular attendance can benefit you, your school and your community.

The school receives its money to pay its teachers with funds the total of which is based on the preceding year's attendance.

When you are absent you lower the attendance record of the school and you are partly responsible for a loss of school money. This is a loss to your parents who must shoulder the burden of the cost of schools.

The number of teachers which our school will employ next year is determined by this year's attendance record. If the record is not good enough the school will be robbed of a potential extra teacher which we might be able to hire if our record were better. This can be demonstrated by a comparison between the total enrollment and the average daily attendance for the second six weeks for our school. For example, our school has 315 students enrolled. This figure divided by 25 students for every teacher gives 13 teachers. The average daily attendance is only 298, though, which when divided by 25 gives 12 teachers. Thus next year we might be limited to 12 teachers, but if the attendance were better we could have 13 teachers.

This possible loss of a teacher could affect you individually. It could mean the loss of a particular course which you might need to have in order to realize your ambition.

Being absent makes it harder for you to prepare your school work also. When you miss a day you must work twice as hard to prepare the back work and the advance work. Valuable classroom experiences and instructions are lost forever.

Attend school regularly.

Absences Noted

By the end of the second six weeks, the underclassmen of CHS are holding a close but firm lead in the race for honors over the upperclassmen as based on average membership, attendance and the number of tardies.

The competition was started to improve the attendance record of the four classes as a whole and to help save our school a great deal of money.

The only thing which the upperclassmen lead in is the fewest number of absences. However, upperclassmen also have the fewest class members. Total number of absences for the first and second six weeks were as follows: Freshman, 219; sophomore, 278; junior, 239; and senior, 217.

In class membership the number of students enrolled becomes less from freshman level to senior level. Membership for the four classes at the end of the second six weeks was the following: Freshman, 86; sophomore, 84; junior, 71; senior, 69.

This gradual change in the total number of students enrolled each year points out a steady increase of students and explains why there is such a demand for more schools, teachers and school facilities.

Average daily attendance at the end of the second six weeks was: Freshman, 78.30; sophomore, 76.20; junior, 63.03; senior, 62.47. The percentage of attendance was the following: Freshman, 92.72; sophomore, 90.44; junior, 88.78; senior, 89.65.

These totals in membership, attendance and number of tardies for the second six weeks show a need for improvement. Because of the many absences, our daily attendance record is not as good as it could be. We here in America have the opportunity for a free and excellent education. Let's make the most of it by attending regularly.

WHAT?

Joe — I met a girl last week who does not drink anything stronger than pop.

Moe — And what does pop drink?

Driver Saves Bus, Barn from Fire

What are the reactions of a man when he sees a fire envelop a bus? Ask Mr. Claude Foster, bus mechanic and driver his feelings when he saw bus no. 22 enveloped by flames. His reaction was to go through the flames and drive the bus outside the barn, thus saving a lot of valuable equipment. The fire occurred Dec. 3.

Mr. Foster had the left rear wheel jacked up and was using a cutting torch to cut a spring holder loose when a spark leaped to the newly filled gas tank, igniting the gas.

"The whole right side of the bus was in flames," he said, "by the time I could get to the door." There was fire all around when he leaped into the bus and backed it out of the garage.

Authorities estimated the damage at \$340. The right side and lower top of the bus is blackened and all but two of the windows of that side were cracked by the heat.

Mr. Foster used a hand extinguisher to combat the fire but it was not out by the time the fire truck arrived.

The bus is in working condition and still makes its daily run.

Eagle Views

Many outstanding football players have been produced by the hard-fighting Canyon Eagles this year who gave their best for the team and are now being rewarded for their fine efforts.

Leonard Miller, for instance, was placed by the coaches of the district on both the All-District 1-AA offensive and defensive teams besides being named the outstanding lineman of the district. During the season Miller played in the backfield but since the coaches could not decide on the lineman for the year team and since Miller was an All-Regional end last year they agreed in selecting him as the outstanding lineman for the season.

Miller may also be selected to play in the annual North-South game to be played in August. The teams for this event are selected from the better players of the state.

John Robert Wheelock, senior center, was selected for the All-District team on offense. He was an All-District center last year, also.

Richard Burgess, also a senior, was chosen for the All-District team on defense for his fine work as a left tackle during the season. Selected for the second string team on offense were A. L. Pruett, Richard Burgess, Dory Funk, Roy Hunter, and Eddie Boydston. Dory Funk, Roy Hunter and Eddie Boydston were selected for the second string team on defense. A. L. Pruett, Roy Harris and Alan Hanks were given honorable mentions.

Have you heard what Richard Burgess wants for Christmas? All he wants is his two front teeth. It seems that a few weeks ago during a football game, Richard was - - - well, one CHS teacher summed it up this way:

He stopped that runt around the end
Was tackled from the rear,
The right guard sat upon his neck,
The fullback on his ear.
The center sprawled across his legs
Two ends sat on his chest;
The quarter and the halfback then
Sat down on him to rest.
The left guard dived upon his head
A tackle smashed his face;
The dentist now works night and day
To solve poor Richard's case.

With only two returning regulars and three lettermen from last year's team, the Canyon Eagles basketball squad has started off the season with surprising strength in having had two thrilling wins and one loss.

Starters include Leonard Miller and A. L. Pruett, returning regulars, Dana Wilbanks, letterman, Dory Funk and Larry Brotherton. In the opening game of the season, Leonard Miller sank a basket in the last three seconds of the game to defeat Gruver, 40-39.

Canyon defeated Happy 25-21 in the second game but lost their third one to Dumas, 56-40.

So far, Larry Brotherton leads the Eagles in scoring with 5 out of 16 attempts for a 31 per cent average. Dory Funk leads the team in rebounds clearing 20 thus far.

Students view CRIME MOBILE

"Keep crime on the run," said Mr. Bill Squier, supervisor of the Crime Mobile, which is a scientific crime detection exhibit. This mobile was shown at CHS Dec. 4.

The exhibit, housed in a 48-foot truck trailer shows the following things: polygraph, commonly called

Where Do I Begin?

Mike Moore and Joe Triplett, freshman FFA boys, work on some of the broken toys brought to them by CHS students. The FFA is collecting broken toys which they plan to mend and distribute to children for Christmas presents. The students have been asked to bring any repairable toys. The drive will last until school is out Dec. 20.

In Christmas Spirit, FFA Collects Broken Toys To Mend and Give

When do you feel the best at Christmas, receiving a gift or giving one? What could be more rewarding than giving small children presents at Christmas time? Are you going to make some child happy this Christmas?

The FFA department not long ago made this announcement: "If you have any old toys please take them to FFA boys so they may be repaired and given to some needed child at Christmas." At the last count there were about four toys received. How many children do you think will be made happy?

Everyone the FFA students set up goal they plan to reach during that school year this Christmas project is one. They feel this is the one plan that can help the younger people in the community. They do need help in the goodwill undertaking.

Among the other goals they have set up this year are as follows: They want to help decrease the number of accidents on the farms, for better crops, put up FFA road promote planting of hybrid seed signs and carry on a campaign to get 90 per cent of the chapter members to contribute 25 cents to the Boys Ranch fund.

So it seems that the thing we the students of CHS could do to help is bring our old toys and contribute them to this cause. It means a wonderful Christmas for some little boy or girl.

Can Freedom Win?

"We have little to fear from subversive influence if by example we demonstrate our knowledge of the duties and privileges of free Americans," assured President Eisenhower in endorsing a program to combat communism.

This program was organized to combat communism by acquainting the public with the danger we face from communism, and in strengthening the will and determination of our citizens to stand up against these threats.

In carrying out this purpose many communities, during Know Your America Week, undertake projects to accomplish the following: Help Americans appreciate the freedoms guaranteed by the Bill of Rights, promote Anglo-Saxon concepts preferable to concepts of communistic countries, present programs to expand reasons why America become great so fast in world affairs as compared with other countries, point out the nature and methods of communism and to present programs pointing out how organizations and individuals can defeat communistic hopes to dominate the world.

The theme of this program was to consider the blessings of freedom.

Where teachers are in demand the heaviest is in the field of sciences, mathematics, special education, homemaking, music and industrial arts. Services can be given any place one desires to work. There will always be a job for a good teacher.

Maggie's Corner

Beverly Henson, Gwen Kelso and Janet Taylor were selected from the senior class as candidates for the Good Citizen Contest sponsored by the Daughters of the American Revolution. One of these girls will be selected by the faculty to represent CHS in the district contest. The winner of the district will go to state. A \$100 Savings Bond will be awarded the state winner.

The girls were selected on the basis of their dependability, service, leadership, patriotism and scholarship. Each must be in the 1958 graduating class.

Everything from tornadoes to the smallest wisp of cloud was discussed at the Science Club meeting Thursday, Dec. 3. Bob Orton, who is with the Amarillo weather bureau, showed films of weather forecasting and types of clouds.

The meeting was held in the home of Judy Taylor. Refreshments were served.

Twelve speech students and Mrs. Simms, instructor, attended a conference held in Lubbock on the campus of Texas Tech, Nov. 23. The conference was held to acquaint students and instructors with the Interscholastic League rules in order that they may better prepare the entries for the spring meet. Criticism and suggestions were offered, but no ratings were given.

The problem of aging young people was discussed in a make-up course.

Students attending were John Robert Wheelock, Jimmy Hiltbrunner, Rhett Plank, Bill Cornette, Mary Brillhart, Barbara Myers, Lavonne Patterson, Margaret Lee Johnson, Lloyd Mann, Sue Fain and Dana Wilbanks.

Freedom Sought Through Teaching

"Freedom in this world depends upon the degree of education of a nation's people," said Miss Waurine Walker. "Wars in this age will be fought and won in the classrooms through the knowledge which is acquired and the skills which are perfected. Miss Walker is director of the Texas Education Agency teacher relations and certification section.

Do you realize how many teachers the state of Texas will be needing by 1962? That year there will be about two million children enrolled in the Texas public schools. These statements simply mean that 7,000 new teachers will be needed for the next five years.

Where teachers are in demand the heaviest is in the field of sciences, mathematics, special education, homemaking, music and industrial arts. Services can be given any place one desires to work. There will always be a job for a good teacher.

FFA Wins First in District Meet; Douglas Bonds Takes High Honors

Juniors Present 'Bolts and Nuts'

A mixed-up mess explodes as the "nuts" in the Bolt Sanitarium for Mental Hygiene get word that there is \$15,000 hidden somewhere in the place.

The "nuts" are possessed with different types of phobias. Lutie Spinks has terrible fits of winking and the poor old fool, Phineas Plunkett, thinks that Lutie is flirting with him. Cadwallar Clippy hears a meow and jumps upon the table so frightened he faints, caught by the manager of the sanitarium, Rebecca Bolt. Mrs. Gertie Glossop carries a sprayer in her hand and is always spraying the air for fear of contamination. She is always cuddling her poor darling child Wilbur who is 10 years old and terribly spoiled.

The "nuts" are always getting popped with a bean from Wilbur's slingshot. Mrs. Glossop thinks this is extremely cute of the poor boy. Prunella Figg and Cadwallar have a little spout about keeping the door shut or opened. Prunella has claustrophobia and Cadwallar is afraid the cat will kill him. Martha Grubb is the melancholic cook always scaring everyone with her prophecies. The eyes of Henry Goobar, the negro porter, get bigger and bigger whenever a lunatic comes near him.

Dr. Hippocrates Joy, healer of the sick, is proud of himself and makes sure everyone knows it. He even wrote a book on psychology.

Benita Bolt and Twink Starr keep sneaking around because they are in love and Rebecca Bolt violently disapproves of Twink. He puts on an act of great and mighty Caesar to get into the sanitarium to be near Benita and try to become a hero by keeping Rebecca out of trouble.

Jack Gordon, a young interne, reports a lunatic from a nearby asylum has escaped and is coming to the sanitarium. Things really start popping then. Screaming and running the "nuts" have a terrible time trying to capture the murderer.

Curious about who plays what part? Come to the junior play, "Bolts and Nuts," for an answer. It is playing this Thursday and Friday at 7:30 p. m. in the CHS auditorium.

The following students are in the play: Mayla Atkinson, Ann Jarrett, Sondra Hines, Melba Haile, Eddie Boydston, Jimmy Brasher, Roy Harris, Margaret Juniper, J. W. Sims, Ronald Frank, Nancy McCormick, Jerry Parker, Barbara Myers and Dwayne Pettit.

Tickets may be purchased at the door. Student general admission is 35 cents and reserve 50 cents, adults general admission, 50 cents and reserve 75 cents.

HOME DEFINITION

Willie (glancing over stock market page) — Pa, what is 'short covering'?

Father — Your mother's latest party dress, my son.

LUCKY CONDUCTOR

A mother with six children boarded a train and gave the conductor so much trouble that he said, at the end of the trip, "I wonder why you don't leave half your youngsters at home!"

The mother looked at him morosely and answered, "I did."

Winning two firsts and one each of second, fourth, and sixth places, Canyon FFA Chapter walked away from the Amarillo District Leadership Contests, Nov. 19, as the highest ranking team of the district. The highest ranking man of the contest was also a member of the Canyon chapter.

Douglas Bonds, freshman, made a good showing and found himself high man of the contest as a result of his excellent performance. He gained a total of 96 points out of a possible 100 points.

Winning first place in the Greenhand Chapter Conducting Contest, the following boys will represent CHS in the Area I contest in Plainview, Dec. 7: Eugene Stocker, president; Ross Bonds, vice president; Marvin Collier, reporter; Joe Triplett, secretary; Dwight McGhee, treasurer; Mike Moore, sentinel; and Arvil Farmer, advisor.

The team scored 916 points out of a possible 1,000. Also representing CHS at the Area I competition will be the FFA quiz team, composed of Douglas Bonds, Harley Wesley and Gary Carver.

Taking second place with 894 points was the Chapter Farmer Conducting team. The team was composed of Ronald Frank, president; Billy Martin, vice president; J. G. Wells, reporter; George Loud, treasurer; Lloyd Triplett, secretary; Neal Lemons, sentinel; Jim Davis, advisor; and members, Walton Bagley and Allan Evers. Alternates of the team were Ronald Bourland and Orin McBroom.

Chapter Farmer Farm Skill Demonstration team, Carroll Wright, Johnny Knittel, Bob Zachry and John Winters, won fourth place.

The Farm Radio Broadcasting team, Jerry Parker, Bob Pearce, and Dale Henry, won sixth place.

Knee Puppet Sam Raises CHS Roof

Using a rabbit puppet in a hat, Judy, a bubble blowing hand puppet, and Sam, a knee, Charlie McCarthy type doll, Mr. Bill Davis, ventriloquist, presented a hilarious assembly of ventriloquism and humor Thursday.

Mr. Davis, who lives in Syracuse, N. Y., became interested in the entertainment world through his hobbies which include magic, hypnotism and ventriloquism. He has been doing ventriloquism for the past five years, and his act has enabled him to travel extensively.

Using two CHS students, Janet Wheeler and Ed Leake, he demonstrated how moving the mouth, combined with his voice could produce the illusion of two students talking and singing.

His program closed as Sam sang a song while Mr. Davis drank a glass of milk!

NOT HIS FAULT

Wife — What do you mean by coming home half drunk?
Husband — It's not my fault, I ran out of money.

Seven Weekly Half-Hour Shows Set for New Amarillo TV Station

When Amarillo's new television station, KVII, Channel 7, begins operation Sunday, West Texas State College will start seven half-hour shows weekly, according to Dr. Jack Walker, director of radio-television activities.

WT will present two shows each Sunday, and one throughout the week except Saturday. The Sunday shows will start at 4 p. m., while those during the week open at 3 p. m.

President James P. Cornette will initiate a series at 4 p. m. Sunday on American literature, while the WT government department will start a series at 4:30 p. m. on current controversial issues. Richard A. Steele, assistant professor of government, will be moderator for a panel.

A "Meet a Prof" series on Mondays will be conducted by Dr. Crannell Tolliver, head of the speech department, and M. J. Newman, head of the music department, will direct a music department program each Tuesday.

West Texas State will be featured each Wednesday, with the programs conducted by William A. Moore and Robert L. Antrim. Agriculture views and news will be presented each Thursday, with the program to be conducted by John L. Shipley, assistant professor of agriculture. Each Friday WT Dean Walter H. Juniper and Amarillo Center Director Roy G. Boger will alternate in presenting the International Sunday School Lesson.

Facilities of KVII, located in the Estateland Life Insurance Building, will be available for laboratory work each morning to radio and

television students of WT.

All programs telecast in the West Texas State series will be handled by WT students, who will handle cameras, sets, floor work, and studio directing. Dr. Walker said.

Churches Plan Special Music

Special Christmas music is planned for at least two Canyon churches for Sunday night.

The combined choirs of the First Baptist Church will present a Christmas program beginning at 7:30 p. m., and the cantata, "His Natal Day," by E. W. Norman will be sung by the choir of the First Christian Church beginning at 8 p. m.

The 90-voice Baptist choir will sing "The Birthday of a King." The program will be under the direction of James B. Johnson, music and educational director of the church.

Accompanists at the Baptist Church will be Fanita Marshall, organist, and Mrs. R. D. Wheelock, pianist. Soloists will include Harrell Slack, Jo Ann Stanaland, Mrs. Charles Pierce, Mrs. Gort Rushmer, Joy Gray, Beryl Hixson and John Robert Wheelock.

Mrs. Sam Jolly is director of the First Christian choir. Lorene Monday will be at the organ and Dorothy Higdon will accompany on the piano.

The public is invited to both of the concerts.

mile is going to knock your hat off."

Commissioner Clarence Beckman said, "I can't see how there should be any special premium paid on those tracts the way those fellows have been coming in complaining about how we overestimated values on our tax schedules."

"But I know what some of those tracts have been selling for—\$22.50 per front foot," McCormick said.

"Well, if that's true, we'd better get out the tax rolls and do some changing," Beckman said. He said he believed the acreage near Canyon is valued on the tax rolls at \$5 and \$10 an acre.

"We're not buying the front footage," Beckman said. "We're buying a strip and leaving the front footage, and it'll be on a better road."

The court decided that a maximum of \$250,000 in warrants would be issued, and the bonds would run for no more than 10 years when the warrants are refunded. They said that if less than \$250,000 is needed, only those warrants which are necessary will be issued.

Under the plan picked by the court, the warrants and refunded bonds will be repaid from current receipts of the road and bridge funds. Some 30 per cent of the repayments will come from each of the funds of Precincts 1 and 4, and 20 per cent from each of the funds of Precincts 2 and 3. The four precincts receive money in those percentages.

The court noted that if a bond election were held and was approved by the voters, a special tax would be added to repay the bonds. It was on this basis that the court decided the warrants route would be less expensive.

GARDEN CLUB TO MEET

The Canyon Garden Club will meet tomorrow evening at the home of Mr. and Mrs. Bill Downing. Gifts pertaining to gardening and not costing more than \$2 will be exchanged by the members. The program will be on house plants.

John F. Taylor Dies Thursday

Services to the memory of John F. Taylor were conducted Monday afternoon in Warren-LaGrone Funeral Chapel with Elder Kenneth L. Gant, Seventh Day Adventist, officiating.

Pallbearers were F. Ralph Marsh, Arlie W. Green, Marlin M. Keeton, Ed Pearce, Ollie Dixon and Arch Gibson. Honorary pallbearers were J. E. Brannen, Dr. J. H. Hill, Loyd Robertson, A. W. Skarda, Eld. G. A. LaGrone and Dr. C. R. Nester. Burial was in Dreamland Cemetery.

Mr. Taylor, 82, died Thursday afternoon in Neblett Hospital. He was born Feb. 24, 1875, in Texas. A resident of Canyon for 25 years, Mr. Taylor lived in Home Canyon at 1312 Fourth Avenue, the old county courthouse. He was a retired educator and an enthusiast for group singing.

Mr. Taylor helped organize the public schools in Clovis and served there as school superintendent. He was also county treasurer and county tax assessor at Clovis. Later he entered business and owned a tire and battery store.

Some 37 years ago, Mr. Taylor organized the Plateau Singing Convention. He was its president until his death and Home Canyon served as headquarters for the convention. In earlier years, singers from all over the Panhandle came to Canyon yearly for an annual all-day singing.

Mr. Taylor helped organize community singing conventions which were affiliated with the Plateau Convention, and attended hundreds of community all-day singings. He held copyrights to more than 100 songs.

Survivors include two daughters, Mrs. Evelyn Gardner, South Lancaster, Mass., and Mrs. Johnie Margaret Bailey, Englewood, Colo.; four sisters, Mrs. Areta Huguley, Dallas, Mrs. Margaret Ream, Modesto, Calif., Mrs. Grace Taylor, Tacoma Park, Mo., and Mrs. Ollie Gant, Lamesa, Calif.; and three grandchildren.

Gifts for Needy Mailed Tomorrow

Presents for the needy at the Abilene State Hospital at Abilene are still being collected. The presents will be mailed to the hospital Thursday afternoon by the Canyon News.

Gifts collected by Tuesday afternoon included stationery, socks, talcum powder, jewelry, candy, Christmas corsages and toys.

Officials at the hospital had requested useful items for gifts so that some persons would not be forgotten at Christmas time.

Band Slates Concert Sunday

First concert of the year by West Texas State College's 85-piece Concert Band will be presented Sunday at 4 p. m. in the Administration Building auditorium. The public is invited to attend.

Conducted by M. J. Newman, the band will play a program of marches, choral preludes, and a number of Christmas carols. A WT graduate's arrangement of Beethoven's "Piano Concerto No. 1 in C Major," will also feature Mary Ann Becker of Pampa, as piano soloist.

Gerald Smith of Panhandle arranged the Beethoven number as part of his requirements for the M.A. degree. Miss Becker, a sophomore music major, is accompanist for the WT A Cappella Choir.

Among marches slated on the program are Alfred's "The Standard of St. George," Jenkins' "American Overture for Band," and Sousa's "Nobles of the Mystic Shrine."

Morton Gould's "Home for Christmas" and his arrangement of three Christmas carols, and Newell Long's "Twas the Night Before Christmas" will be featured. Roy Lowe, Amarillo senior, will read the favorite poem to the music, which was arranged by Long, an Indiana University professor.

An Iowa State professor, William Latham, arranged the three choral preludes for church hymns, which the band will play.

ed the Rev. Strauss Atkinson chairman, Virgil Henson recorder and decided to meet Jan. 21.

The curriculum committee elected J. E. Miller chairman, Mrs. Jack T. Hughes recorder and decided to meet at 7:30 p. m. Jan. 7 in the high school library.

The committee on teacher supply selected Bob Wear for chairman, Mrs. W. E. Miller recorder and did not set a meeting date.

Prock Rites Held In Alanreed Friday

Funeral services for William L. Prock, father of Lawrence Prock of Canyon, were held Friday in the Alanreed Baptist Church by the Rev. Paul Cooper, pastor of the Alanreed Pentecostal Church. Burial was in the Alanreed cemetery.

Mr. Prock, 76, died Wednesday night. He had lived at Alanreed since 1911.

Others surviving include his mother, three other sons, and two sisters.

TOO MUCH

A Latin-American tells how a businessman in one of the "banana republics" wrote a letter placing an order for an engine capable of a thousand revolutions a minute. The letter was intercepted

ed by government agents, whereupon the businessman was called before El Presidente, who said:

"One revolution a day we can handle, but a thousand revolutions a minute — too much!"

Stored in the boxes with Christmas trimmings are a host of moods, memories and meanings. Visible only to a few special persons — or maybe just to one — these "spirits" emerge in many different ways.

That glittering spike that decks the top of the tree, for instance; there's a nick out of the edge. Not enough to make it unusable, or even to show, if it's placed just right. Youngsters now grown weren't quite tall enough to fasten it without standing on tiptoe in a chair, and caused the edge to give way.

The small Santa candles have never been lighted, because once upon a time, a 10-year-old couldn't bear to burn the image of the jolly little man. The gay little "Klockspel" from Holland, given us years ago, that turns and tinkles from the heat of six small red candles, still reflects the shining eyes of three young cousins.

Not all these little Christmas sprites are attached to things. Some of them just nest in the Christmas storage box and come out to hover round the warm house for several weeks. They escape into the kitchen, where a small boy seems to stand on a chair to "help" make gravy; where chattering girls talk "beaus" while they nibble at the fruit cake and clean up dishes after second-table Christmas dinner.

Unhappy meanings and memories? Not at all. Many of them are quite pleasant, many tender; all are sweet. Memories stir the heart, enrich the soul. They place our feet on solid ground. So hurry with those Christmas things! Dust off the bells and bows and bright balls! Holidays are made for living and loving, and maybe for thinking back as well as forward into today.

Wayside Club Meets With Mrs. Bill Allen

The Wayside Home Demonstration Club met with the club president, Mrs. Bill Allen, for the annual Christmas party.

Mrs. Allen had prepared a turkey dinner and trimmings for the luncheon. After the noon meal, Mrs. I. F. SoRelle and Mrs. E. J. Mahler had charge of the games played during the recreation period.

Secret pals' names were revealed and new names were drawn. Gifts were exchanged.

Present were old members, Mrs. C. D. Rogers, Mrs. Melton McGehee, Mrs. Floyd Adams, Mrs. Henry Hamblen, Mrs. Mahler, Mrs. James Bible, Mrs. Paul Wetzel, Mrs. A. J. Newsom, Mrs. SoRelle, Mrs. D. T. McGehee, Mrs. W. A. Doan Jr., Mrs. Willie Modisette, Mrs. Cortez McNeill, and a new member, Mrs. W. H. Hamblen, and the hostess.

MOTHER DIES

Mrs. Sudie Terry of Graham, Texas, mother of Mrs. Gertrude Wise, died last Friday at the home of another daughter, Mrs. Smith. Mrs. Wise had been with her mother for the past two weeks. Funeral services were held in Graham.

SOIL CONSERVATION DISTRICT NEWS

THE GREAT PLAINS CONSERVATION PROGRAM in Randall County is ready to move.

Approval by State Program Committee of a list of soil-stabilizing, moisture-saving practices for the county was announced today by Joe G. Batson, who as leader of the Soil Conservation Service staff is chairman of the Randall County Program Committee.

Also approved were rates at which the federal government will share the cost of installing the practices.

These rates, based on average cost of the work in this county, range from 50 to 80 per cent of the total cost of installing each practice. Cost-share rates for Randall County have been worked out by the county program committee and submitted to the State Program Committee which is headed by State Conservationist H. N. Smith as chairman.

Batson said that the approval of practices and cost-share rates clears the way for first applications.

The purpose of the Great Plains Conservation Program, Batson explained, is to develop an agriculture that resists the weather extremes that are a constant hazard in the Plains area. This will contribute to a more stable economy.

"The county program committee is looking forward to enthusiastic response to this opportunity," Batson said. "We have moisture now and that means an opportunity to make a good start on this program. Our records in this county show that there's drought somewhere in the Plains every year."

"When moisture is good is the time to get ready for the years when conditions are less favorable. Indications are that several farmers and ranchers in this county are ready to take advantage of this chance for real help in getting a conservation plan on his farm or ranch," Batson added.

Foundation of the program is a complete soil and water conservation plan for each farm or ranch. The farmer or rancher agrees to establish all needed measures in his plan within a period of not less than three or more than 10 years.

Batson pointed out that when the farmer or rancher becomes a party to the contract the money for the government's share of the cost is set aside for his part of the program.

Congress, in providing for the launching of the program, authorized \$150,000,000 for a 10-year period, but specified that not more than \$25,000,000 will be spent in any program year. Appropriation for the first kickoff year was \$10,000,000.

A total of 233 counties in the 10 Great Plains states has been designated by Secretary of Agriculture Ezra T. Benson for the program.

Members of the County Program Committee, in addition to Chairman Batson, are O. H. Rahlfs, A.S.C. committee chairman, and Ray Devenport, F.H.A. supervisor. Also participating in the committee's work are John Brazzil, Randall County Agent, John Wiek and Kenneth Erwin, A.S.C. com-

mitteemen, and Randall-Potter Soil Conservation District supervisors J. W. Spencer, C. V. Conatser, Frank Begert, R. C. Sampson and Marshall Rockwell Jr.

Here is the list of practices, with cost-share rates, for this county:

GP-1: Initial establishment of a permanent vegetative cover as a part of an improved cropping system or as a needed land-use adjustment.

- A. Establishing Cover — 80% of average cost
- B. Establishing Grass — 80% of average cost
- C. Fencing — 50% of average cost

GP-5: Improvement of vegetative cover on rangeland by artificial reseeding for soil protection.

- A. Seeding Operation — 80% of average cost
- B. Cost of Seed — 80% of average cost

GP-6: Initial establishment of a stand of trees or shrubs on farm or ranch lands for windbreaks, erosion control, or other purpose to protect farm or ranch land from wind or water erosion.

- A. Establishing Windbreaks — 80% of average cost
- B. Constructing Fence — 50% of average cost

GP-7: Initial establishment of permanent sod waterways to dispose of excess water without causing erosion.

- A. Shaping Waterway — 80% of average cost
- B. Conditioning Seedbed — 80% of average cost
- C. Establishing Vegetation — 80% of average cost
- D. Fencing — 50% of average cost

GP-8: Constructing terraces to detain or control the flow of water and check soil erosion.

- A. Terrace Construction — 70% of average cost

GP-9: Constructing diversion terraces, ditches, or dikes to intercept run off and divert excess water to protected outlets.

- A. Earth work — 70% of average cost
- B. Net wire diversions — 70% of average cost

GP-10: Chiseling or pitting non-crop grazing land to prevent soil loss, retard run off and improve water penetration.

- A. Chiseling Operation — 50% of average cost
- B. Pitting — 50% of average cost

GP-11: Constructing erosion control, detention or sediment retention dams to prevent or heal gully-ing or to retard or reduce run off of water.

- A. Earth work — 70% of average cost

GP-12: Constructing channel lining, chutes, drop spillways, pipe drops, drop inlets or similar structures for the protection of outlets and water channels that dispose of excess water.

- A. Structure — 80% of average cost

GP-14: Constructing spreader ditches or dikes to divert and spread water to prevent erosion, to permit beneficial use of run off, or to replenish ground water supply.

- A. Earth work — 70% of average cost
- B. Net wire structures — 70% of average cost

GP-15: Reorganizing irrigation systems to conserve water and prevent erosion.

- A. Pipelines — 50% of average cost

GP-16: Leveling land for more efficient use of irrigation water

Fairview Breezes

Brother Bill Hall preached for us Sunday morning and evening.

Mrs. Charles Sutton was released from Neblett Hospital Saturday morning and is at home doing well.

Mr. and Mrs. Charles Wilson and children have moved to the Melvin Miller home near Happy where he will work for Elmer Miller.

Mrs. Georgia Rogers returned from Fort Worth where she had been for the past two weeks caring for her grandchildren and her daughter, Mrs. Don Stoneberg. The new arrival was named Edward Ray.

Mrs. G. E. Wesley was ill with a cold Sunday and was unable to attend church.

Gene Shipman and C. R. Wesley moved the G. E. Wesley cattle from J. W. Wesley to the Adding-ton farm Saturday.

Visitors in the G. E. Wesley home Friday evening were Mr. and Mrs. J. W. Wesley and Mr. and Mrs. F. O. Amerson.

Mr. and Mrs. Woodrow Wesley and boys attended the junior class play in Happy Friday evening.

Ella Hext visited Saturday night and Sunday with the Woodrow Wesleys.

Mr. and Mrs. E. E. Wesley and Susie went to Golhwaite in Mills County to attend the golden wedding anniversary of her parents, the Charles Millers, on Dec. 1. They returned to their home in Littlefield Sunday evening.

Frank Rogers has been sick with a cold all week.

Maize harvest is over in this vicinity with quite a heavy loss from falling. F. O. Amerson reports 95% of his maize fell. The cotton will be a poor grade because of the early freeze.

Brother Billie Hall visited the Suttons, Reads, Colliers, Rogers and grandmother Evans Sunday.

Mr. and Mrs. J. W. Wesley visited Sunday afternoon with Mrs. Wesley's mother, Mrs. W. F. Evans.

and to prevent erosion.

- A. Leveling operation — 50% of average cost

GP-19: Construction wells for livestock water as a means of protecting vegetative cover.

- A. Drilling the well — 50% of average cost

B. Casing — 50% of average cost

C. Water storage facility — 50% of average cost

GP-21: Constructing, enlarging, deepening dams, pits, or ponds as a means of protecting vegetative cover.

- A. New Construction — 50% of average cost
- B. Enlarging — 50% of average cost

GP-22: Installing pipelines for livestock water as a means of protecting vegetative cover.

- A. Installing pipeline — 50% of average cost

GP-23: Controlling competitive shrubs to permit growth of adequate desirable vegetative cover for soil protection on range or pasture land.

- A. Controlling shrubs — 50% of average cost

GP-24: Constructing permanent fences as a means of protecting vegetative cover.

- A. Fence construction — 50% of average cost

Sp/3 Alan R. Hawkins of Hamburg, N. Y., is home on a month's furlough visiting his parents, Mr. and Mrs. Ray Hawkins.

Club Meeting Is In FB Building

The Pleasant-Jo 4-H Club met Dec. 2 in the Farm Bureau building.

During the business meeting presided over by Candy Throckmorton, Kathryn Winstead was appointed reporter. The 4-H motto and pledge were reviewed, and members participated in a game period.

Present were Sharon Cranmer, Peggy Cranmer, Leta Cranmer, Norma Henderson, Edna Lewis, Candy Throckmorton, Judy Wilson, Kathryn Winstead, members, and Mrs. E. L. Cranmer, adult leader.

Next meeting is a Christmas party in Miss Winstead's home Dec. 16.

Mr. and Mrs. Frank Adcock of Chester, Calif., visited in the homes of H. C. Adcock and Mrs. Ruth Hill. Mrs. Adcock spent most of the time at the bedside of her father, J. B. Knox, who is seriously ill at his home in Happy.

Original Drawing Given to Museum

The original jacket drawing of one of Loula Grace Erdman's novels has been received by the Panhandle-Plains Historical Museum.

The novel, "The Wind Blows Free," has enjoyed long-time popularity in this country and has been published in several foreign countries.

C. Boone McClure, director of the museum, said that he is seeking a collection of Miss Erdman's manuscripts, as well as those of other Panhandle authors. Miss Erdman earlier had presented her manuscript of "The Edge of Time."

L. N. Sublett of McLean spent Sunday with his daughter and family, the A. B. Berrys.

Mr. and Mrs. Ed Lepper of Happy spent the weekend with her mother, Mrs. Iris Gazzaway.

Christmas Fete Set By Arrow Point Club

An annual Christmas party for the Arrow Point Boys 4-H Club will be held Dec. 13 at 7 p. m. in the Randall County Courthouse annex on Bowie Street in Amarillo.

The boys and their parents will exchange presents.

Mrs. Mona Hildreth, home demonstration agent for Randall County, has returned from the state convention of the Texas Home Demonstration Agents Association in the Adolphus Hotel in Dallas, where she was chairman of the hospitality committee.

Mrs. C. J. McClure of Lockney spent last week with her daughter and son-in-law, Mr. and Mrs. Louis Golden.

Cal Sanders of Turlock, Calif., spent a week recently with his parents, Mr. and Mrs. M. C. Sanders, and other relatives.

AMITY CLUB TO MEET

The Amity Club will meet with Mrs. John Wright, northeast of Canyon, Friday, Dec. 13, at 2:30 p. m.

Sp/3 Lowell Hill returned to his base at Ft. Totten, N. Y., after spending a 20-day leave here in the home of his mother, Mrs. Ruth Hill.

E. A. Oberst Sr. returned Friday from a five weeks visit in Wichita Falls, Houston, El Paso and Durango, Colo.

Nannie B. Andrews of Dallas arrived last week to spend the Christmas holidays with her neices, Mrs. J. D. Barker and Mrs. C. Petruccione.

DUMB BELL

He (calling from house) — Take a glance at the gas, will you, Mabel?

Mabel — The indicator says half, but I don't know if it means half full or half empty.
